Dear Mr Wilson.

In response to the Notice of Non-Compliant Amendment (mail date 11th April, 2007), I would like to take the following correction.

I would like to not enter the preliminary amendments, and file the application as originally published by WIPO with the International Publication Number WO 2006/012666 A1 on 9th February 2006.

That is, I would like to proceed to the US National Phase for PCT application PCT/AU2005/001026 as originally filed without any preliminary amendments.

Please do not hesitate to contact me if there are any outstanding issues,

Yours sincerely,

Louis Par
